Lic. Ricardo Ramiro Rengifo Huanío

# MUY QUERIDOS HERMANOS

We want to thank you for  
your presence among us,  
because with it you show  
us the appreciation and  
affection you have for us.

Thank you for coming to our  
community and sharing the bonds of  
friendship and fraternity.

Thank you for your voices, though in a different language, transmit to us what is in your hearts.

Thank you for your eyes, with the looks of tenderness they give us. They allow us to feel the confidence of our brothers and sisters.

Thank you for your ears, which are ready to listen to our experiences and learn a little from them.

Thank you for your hands, which we well know are used to do jobs that are not yours, but you do them with love and devotion.....helping.

Thank you, because the time we are not physically together, we continue to receive your prayers and concern.

There are many more things to thank you for....but they will be stored in our hearts as a sign of a friendship that grows despite the distance.

We are from different cultures, but we have some things in common that unite us as brothers and sisters, the same faith and the same “FRANCISCAN” charism.

You and we, and many  
other people around  
the world, share the  
feeling of being  
children of Francis,  
the poor brother.....

An intentional,  
material  
poverty that  
gave him a  
great spiritual  
wealth.

thank you  
very much
